

Natural Gas Purification Plant for Sale

Products

Purified natural gas of methane content up to 97.5%

Feedstock:

Low methane content natural gas

Capacity

4 MM SCFD purified natural gas
(4,800 m³/hr)

Product Specification:

C2 < 300 ppm

H2S < 1 ppm

Pressure > 80 psig

Year Built:

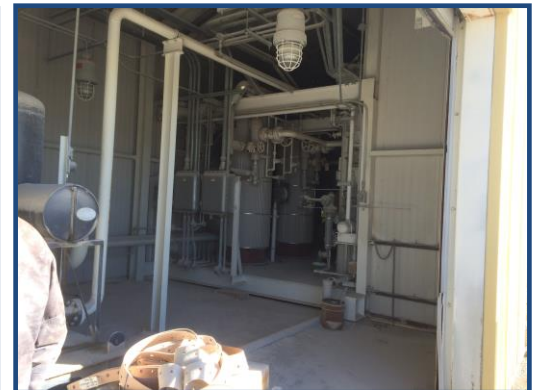

1990

Year Shut Down:

1991

Major Equipment:

- Inlet gas compressor
- Dehydrator and heater
- Boost compressor
- Turbo expander
- Gas separator
- Methane cooler
- Gas filter
- Transformer

BRIEF PLANT DESCRIPTION

This plant improves the quality of impure natural gas, that enters inlet gas suction scrubber and then goes through compressor, filter/separator, dehydrators, dust filter, booster/compressor and finally reflux condenser, de-methanizer and intercooler. Final products include 4 MM SCFD purified natural gas and 1.5 MM SCFD fuel gas.

All the equipment is mounted on skids, which provide easy relocation and set up.
